FAMILY EDUCATION

Active Parenting of Teens

Let's talk about being an authoritative (active) parent rather than a dictator or a doormat. Learn the importance of choice and respect when working with today's adolescents.

You are invited to join us for a discussion about active parenting focused on preteens and teens. We will also address the special problems of drugs, sexuality, and violence.

Who should attend?

Caregivers of preteens and teens

Workshops are free!
Refreshments provided
Registration required

Schedule:

Wednesday

March 13, 2019

9:30 am to 11:30 am
