

FAMILY EDUCATION WORKSHOP

Last One Picked, First One Picked On[©]

For most children, playing with friends is a daily ritual. But some kids are often isolated and rejected, lacking social skills to make and keep friends. If this is a concern of your family, we invite you to join us for a discussion of social skills.

Get a greater understanding of social skills deficits and specific strategies for developing appropriate social skills. The Richard Lavoie video will be followed by a facilitated discussion addressing the importance of understanding and helping children develop these skills.

Who should attend?

Caregivers of children of all ages

***Workshops are free!
Refreshments are provided
Registration is required***
