Mindfulness for Parents

Learn how mindfulness can grow a deeper connection with your child. As we become mindful caregivers, we become better at regulating thoughts and emotions and more self-attuned. This is reflected in our approach to our children and ultimately in our ability to help them on the journey of positive behaviors and self-control.

You are invited to join us for a discussion about mindfulness, including a DVD featuring Thich Nhat Hanh, who brought the practice of mindfulness to the US.

Who should attend?
