

FAMILY EDUCATION

Cyber Safety

Many caregivers feel challenged to keep their children safe in our fast-paced, global society. Do you wonder at what age to begin teaching your child about personal internet safety?

You're invited to join us for an important presentation about cyber safety. We will present strategies to help you protect your children by teaching them to be safe and to make smart decisions.

This session includes a DVD by the National Center for Missing and Exploited Children, accompanied by a facilitated discussion.

Who should attend?

Caregivers of school-age children

***Workshops are free!
