When the Chips Are Down©

Disciplining Children with Behavioral Challenges

Do you ever have days when the kids seem totally out of control? Do you find yourself falling into the same pointless arguments with your students or your children? The DVD, *When the Chips Are Down*,© is hosted by Richard Lavoie, a nationally known expert on learning disabilities. He offers practical advice on dealing with behavioral problems quickly and effectively and shows how preventive discipline can anticipate many problems before they start.

The presentation will be accompanied by a facilitated discussion about specific strategies to create a stable, predictable environment in which children with learning disabilities or behavioral challenges can flourish.
